

## Give your clinical staff tools to meet the challenge of COVID-19

Enable specific EHR-integrated automated solutions in hours

### USE CASES

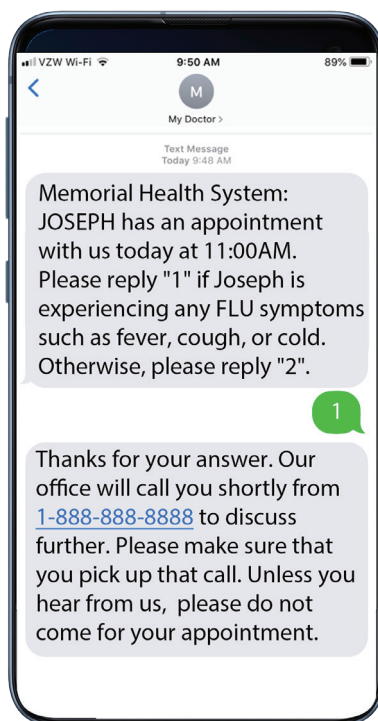

- Identify & manage patients exhibiting infection symptoms
- Facilitate conversion to Televisit
- Broadcast for education, follow-up, or urgent communications

### BENEFITS

- Mitigate staff exposure
- Reduce community spread
- Manage drive-through testing
- Reduce staff burden

### DEPLOYMENT & OPERATIONS

- EHR integrated
- One day to go live with an hour of IT effort
- Customizable workflows & scripts

### CASE STUDY

Health system with 2000+ providers went live with the solution to identify suspect cases.

First day outreach to 2,500+ patients with appointments that day
